U 582  
v. 50

## Important Notice

Inclusion of names in this compilation is based on the residence of designated next of kin at the time of casualty. This listing does not represent the State Credit according to service enlistment, since all personnel in the Naval Services are American citizens and now have or have had United States addresses. The fact of this foreign grouping in no way reflects adversely on the honored service and sacrifices given to the United States during wartime.

A number of World War II Casualties whose next of kin resides in foreign countries or U. S. Territories and possessions also have relatives in the United States. In such cases, where known, they have been classified in the heretofore published U. S. Summaries and do not appear in this compilation.

Casualties listed represent only those on active duty in the U. S. Navy, Marine Corps, and Coast Guard, resulting directly from enemy action or from operational activities against the enemy in war zones from December 7, 1941, to the end of the hostilities. Casualties in the United States area or as a result of natural causes, homicide, or suicide in any location are not included.

Personnel listed as MISSING are under continuous investigation by the Navy Department and therefore are subject to momentary status change. The last official notice to next of kin will take precedence over this list.

The WOUNDED tabulation represents a count by individuals and includes only those officially reported to Washington Headquarters. Many minor wounds were recorded only by Purple Heart awards in the fields of action. Complete data on all wounded naval personnel will be available later.
